ProxKey™ II Proximity Keyfob

The new, RF programmable ProxKey™ II Proximity Keyfob incorporates proximity technology into a device approximately the size of an automotive key. Small and convenient, the ProxKey II keyfob is always there when you need it, on your key ring. Now OEMs, distributors, and dealers using HID's Field Programmer's can ship custom encoded keyfobs to their customers, from their own inventory. Smaller order quantities, special coding, even over-night delivery are now possible with the ProxKey II keyfob and the HID Field Programmer.

HID's advanced technology allows the ProxKey II keyfob to be programmed with information formatted for universal compatibility with all HID proximity readers. Each ProxKey II keyfob is provided with an external number for easy identification and control.

The RF programmable ProxKey II proximity keyfob is another example of HID's commitment to bringing advanced technology to the radio frequency identification market.

Specifications

Typical maximum* read range:
MiniProx™ reader   up to 2" (5 cm)
ThinLine II™ reader   up to 2" (5 cm)
ProxPro™ reader   up to 3" (7.5 cm)
NT MaxiProx™ reader up to 12" (30 cm)

Dimensions:
1.9" x 0.9" x 0.345" max.
(4.83 x 2.29 x 0.88 cm)

**Keyfob construction:**
Ultrasonically welded, polycarbonate shell

Operating temperature:
-50° to 160° F (-45° to 70° C)

Weight:
0.26 oz. (7.4 gm)

*Depending on local installation conditions.

.900"
(2.29 cm)

1.90"
(4.3 cm)

.550"
(1.4 cm)

0.160"
(0.41 cm)

Features

Proven, reliable technology: The read range of the ProxKey™ II keyfob is extremely consistent. It is not affected by body shielding or variable environmental conditions, even when close to keys and coins.

Small and convenient: Carry it with your keys in your pocket or handbag.

Cross-reference: A cross-reference list correlating the external card number and the programmed ID number is provided for easy system administration. External numbering matching the encoded numbers is available.

Security: The ProxKey II keyfob offers over 137 billion unique codes.

Long life: ProxKey II keyfobs use a passive, no-battery design, allowing for an infinite number of reads.

Durability: The ProxKey II keyfob polycarbonate package is very resistant to cracking or breaking.

Warranty:
ProxKey II proximity keyfobs are warranted against defects in materials and workmanship for life from date of shipment. (See complete warranty policy for details.)

Part number

Base Part No.: 1346

Description: 125 kHz, RF Programmable,
                          Charcoal Gray, Customer Specified
                          ID Numbers, Key Ring Included

Options: External Card Numbering

(Please see "How to Order" guide for a description of the options and associated part numbers.)
